Background In November 2009, the California Legislature passed, and Governor Schwarzenegger signed, a comprehensive water package that included four policy bills and an \$11.14 billion bond measure. Senate Bill X7-1 (SB 1) by Senators Simitian and Steinberg established the framework to achieve the co-equal goals of providing a more reliable water supply to California and restoring and enhancing the Delta ecosystem. SB 1 directs the DPC to prepare and submit to the Legislature, on or before July 1, 2010, recommendations regarding the potential expansion of or change to the Primary Zone or the Delta. The DPC is directed by SB 1 to consider recommendations on the status of all of the following areas: Rio Vista, Isleton, Bethel Island, Brannan-Andrus Island, Cosumnes/Mokelumne floodway, and the San Joaquin/South Delta lowlands.
